NEW COLLECTION

L'ambiente bagno si arricchisce di personalizzazioni. Attraverso nuovi e suggestivi materiali interpreta i diversi stili con cura nei dettagli, al pari di un living o di una cucina.

The bathroom benefits from customisations.
New, evocative materials are used to interpret different styles and details, just like a living room or kitchen.

Una palette sorprendente dà vita a nuove suggestioni decorative

An amazing palette brings to life new decorative suggestions

L'ambiance salle de bain acquiert de nouvelles personnalisations. À travers de nouveaux magnifiques matériaux, elle interprète les différents styles avec soin dans les détails, comme pour un living ou une cuisine.
Une palette surprenante donne vie à de nouvelles suggestions décoratives.

Eine überraschende Farbpalette ruft neue Dekoreffekte ins Leben. Das Bad wird durch individuelle Gestaltung aufgewertet. Mit neuen und eindrucksvollen Materialien werden, wie im Wohnraum oder in der Küche, verschiedene Einrichtungsstile mit Sorgfalt im Detail interpretiert.

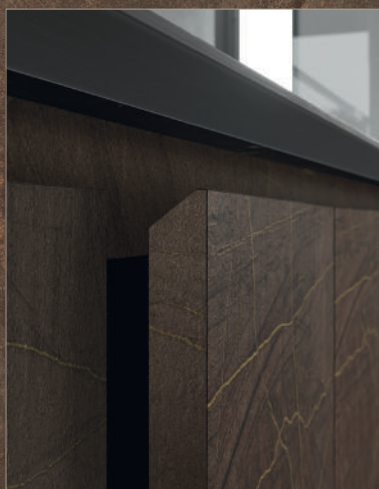

Hpl

Progettare attraverso i rivestimenti che diventano protagonisti con trame e venature inedite.
Design makes use of materials whose unusual patterns and grain take the limelight.

L' HPL è un materiale strutturato, compatto e resistente. Particolarmente indicato per essere utilizzato in ambienti umidi come il bagno perché conserva inalterate le sue proprietà di resistenza all'acqua e all'usura. La superficie si presenta non porosa anche nelle finiture più variegate, quindi igienica e facilmente pulibile.

A HPL is a structured material that is compact and resistant. It is particularly suitable for use in humid places such as bathrooms because its resistance to water and wear remain intact over time. The non-porous surface for all finishes makes it hygienic and easy to clean.

TEXTURE A PAGINA 164 - 165

L'HPL est un matériau structuré, compact et résistant. Particulièrement indiqué pour être utilisé dans des ambiances humides comme la salle de bain parce qu'il conserve intactes ses propriétés de résistance à l'eau et à l'usure. La surface se présente non poreuse également dans les finitions les plus variées, donc hygiénique et facile à nettoyer.

HPL ist ein strukturiertes, kompaktes und widerstandsfähiges Material. Es eignet sich vor allem zur Verwendung in Feuchträumen, wie beispielsweise im Bad, da es wasser- und verschleißfest ist. Die Oberfläche ist auch bei mehrfarbigen Ausführungen nicht porös und somit hygienisch und leicht zu reinigen.

Fenix

La forza espressiva del colore nei nuovi toni pastosi e super opachi.
The force of colour is expressed in our new creamy, super matt shades.

Il FENIX si contraddistingue per la sua superficie uniforme, super opaca e morbida al tatto. I colori proposti non riflettono la luce risultando così molto intensi anche nelle tonalità più tenui. Anch'esso un materiale innovativo che si mantiene inalterato nel tempo, resistente all'abrasione e ai graffi.

FENIX is distinguished by its super matt uniform surface that is soft to the touch. Because the colours do not reflect light even the palest shades are deep and bright. This is also an innovative material that remains unaltered over time as it is resistant to abrasions and scratches.

COLORI A PAGINA 167

Le FENIX se distingue par sa surface uniforme, super opaque et douce au toucher. Les couleurs proposées ne reflètent pas la lumière, résultant ainsi très intenses également dans les tonalités les plus fortes. C'est lui aussi un matériau innovant qui se maintient intact dans le temps, résistant à l'abrasion et aux rayures.

FENIX unterscheidet sich durch seine gleichmäßige, supermatte und berührungsfreundliche Oberfläche. Die angebotenen Farben reflektieren das Licht nicht, wodurch auch zarte Farben intensiv wahrgenommen werden. Ein ebenfalls innovatives Material, das strapazierfähig, abrieb- und kratzfest ist.

Laccato

Le superfici colorate sorprendono a seconda di come riflettono o assorbono la luce.
The way light is reflected or absorbed creates amazing coloured surfaces.

La ricerca stilistica che mira a soluzioni sempre più tailor made, ha portato all’ampliamento della palette dei colori laccati e soprattutto a differenziare la finitura di superficie in tre proposte differenti per ciascun colore: lucida, opaca o Touch.

Research into styling aims at many more opportunities for tailor-made solutions, including extending the palette of lacquered colours and in particular differentiating surface finishes with three different options for each colour: glossy, matt or Touch.

I laccati sono disponibili anche nelle stesse tonalità del Fenix.
The lacquered finishes are also available in the same colours as Fenix.

FINITURE A PAGINA / FINISHES ON PAGE 163

Les surfaces colorées surprennent selon la façon dont elles reflètent ou absorbent la lumière. La recherche stylistique qui vise des solutions toujours plus tailor made, a mené à l’élargissement de la palette des couleurs laquées et surtout à différencier la finition de surface dans trois propositions différentes pour chaque couleur : brillante, mate ou Touch.

Die farbigen Oberflächen überraschen, je nachdem ob das Licht reflektiert oder aufgenommen wird. In stilistischer Hinsicht stehen kundenspezifische Lösungen immer mehr im Vordergrund, weshalb die Palette der Lackfarben erweitert wurde und insbesondere die Oberfläche jeder Farbe in drei unterschiedlichen Ausführungen erhältlich ist: Hochglanz, Matt oder Touch.

Le pratiche mensole in metallo ampliano le possibilità progettuali. Disponibili in tutti i colori laccati in finitura opaca o Touch.

The practical metal shelves add scope to the design. Available in any of the matt or Touch lacquered colours.

Nella base gli accostamenti di forme e materiali sono funzionali oltre che estetici. Il focus è sul vassoio che, nei piccoli spazi, con le sue sponde contenitive, costituisce una valida alternativa al classico top.

The coordination of shapes and materials for the base units is functional as well as attractive. The focus is on the tray with its raised edges, a valid alternative to the classical top where space is limited.

Il vassoio con le sponde arrotondate è pensato per dare valore ai piccoli spazi e caratterizzarli attraverso l'accostamento di materiali differenti.

The tray with rounded raised edges is designed to enhance small spaces and distinguish them by mixing and matching different materials.
